7. Use of site							
Assessment	Criteria						
7.1	Unsociable behaviour (including infrastructure damage)	0					
Site activities tick all that apply	Fly tipping (including garden waste)						
tick an that apply	Significant levels of dogs running off path off lead						
	Regular light littering						
	Presence of dog waste (on ground and/or in trees)	-1					
	Mismanagement or general misuse (inappropriate and unauthorised planting, ivy clearance from tree trunks, tree works etc or localised wildlife damaging activities)	0					
	<u>Responsible</u> site usage (people walking on path, dogs under control, no littering)	2					
	Evidence of positive outdoor usage (general usage for exercise, enjoyment of open space, children's play etc)	3					
	Evidence of positive local management (by council, site manager, volunteers). For instance dead hedging, fencing of sensitive areas, restoration projects.	4					
Total score							

Is there any evidence of tree diseases or pests present? E.g. ash die back, Dutch elm disease, oak processionary moth. If yes, what is the frequency (frequent; occasional; rare) and could you locate it in the map of the woodland?

Is there any conflict of interest regarding the use of the site? E.g. some people using motorcycles.

Other notes:

Compartment ID:

Surveyor(s):

Borough:

What is the main use of the space? Nature conservation /

Date:

community woodland / cemetery /

1. Trees				2. Native shrub			
Assessment	Criteria	Score	Tick box	Assessment	Criteria	Score	Tick box
1.1 Canopy cover	No gaps in the canopy, no light reaching the ground (>90% of	0		2.1 Native shrub composition	No shrub layer present (jump to 3)	0	
	canopy) Canopy very open (max 20%) or no canopy	0			The <u>only</u> species is bramble (jump to 3)	1	
	Very close canopy (75-90%); little amount of light arriving to the ground)	1			All shrubs of same species (not including bramble) 2-4 species of shrubs	2	
	Some gaps in the canopy, (25-75%); light scattered on the ground	3			5 or more species	4	
1.2 Dominant (most common) tree species	Canopy of a mix of more than 4 dominant species (tick & jump to 1.3)	3		2.2 Native shrub density 2.3 Native shrub age variation	Dense covering of shrubs over most or all of woodland	1	
	Canopy of mostly 3-4 dominant species	2			Scattered throughout Even combination	3	
	Canopy of mostly 1-2 dominant species	1			of dense covering of shrubs in places, with scattered shrubs elsewhere	4	
1.3 Age variation of dominant trees	<u>All</u> trees evenly aged (similar size: e.g. only old trees present). No saplings	0			All shrubs even aged (similar size within a species)	2	
	<u>Most</u> trees evenly aged. No saplings	1			Most shrubs are evenly aged	3	
	<u>Most</u> trees evenly aged. At least <u>some</u> saplings	3			Age variable (different		
	<u>Even mix</u> of ages; <u>some</u> saplings	4			sizes within a species)	4	
	<u>Even mix</u> of ages; <u>plentiful</u> saplings			Total s		ore	
Total score (sum all the numbers)							

Do you know if the site is currently managed?

If **yes**, how (e.g. signs of coppicing, thinning)? You can use % of the area.

Is it a young woodland? Approx. 90% of the trees have less than 8cm of diameter at chest level, and less than 5 metres high. Plantations included. Yes / No If yes, jump to 2.1

3. Ground layer				4. Problem species				
Assessment	Criteria	Score	Tick box	Assessment	Criteria	Score	Tick box	
3.1 Bare ground (<u>not</u> including designated/official paths)	No vegetation covering the ground, <u>all</u> bare ground	0		4.1	None (jump to 4.3)	4		
	<u>No</u> bare ground, all covered by vegetation (jump to 3.3)	1		Invasive plant Species including shrubs & ground vegetation (see species guidance) 4.2	Present in <u>less than 5%</u> of the total area	2		
	<u>Small</u> areas of bare ground, scattered between the vegetation on the ground layer	4			Present in <u>5-10%</u> of the total area Present but no control	1		
	Other	1			measures in place	0		
3.2	None	4		Management of invasive plant	Present but management inadequate, not under	о		
Erosion and compaction (<u>not</u> including designated/official paths)	Small areas (e.g. some paths have been slightly widened; dogs frequenting one specific area)	1		species	Present, management adequate, but not under control	1		
	Large areas	0			Present, but management in place, and under control	2		
3.3 Ground cover vegetation (herbs, wildflowers, bulbs, bramble from the floor till 0.5m)	Dominated by grasses, nettles or cow parsley (jump to section 4)	0		4.3 Competitive plant species that tend to dominate and exclude other species including shrubs & ground vegetation	None (jump to 5)	4		
	Dominated by ivy, bracken or bramble (jump to section 4)	1			Present in <u>more than</u> <u>20%</u> of the total area Present in <u>less than 10%</u> of the total area	0		
	Dominated by <u>more</u> <u>than 2</u> typical woodland species, other than ivy, bramble, nettles and	4			Present in <u>10-20%</u> of the total area	1		
	grasses (see species guidance)			4.4	Present but no control measures in place	0		
	Mix of bracken, ivy, bramble, cow parsley & at least <u>more than</u> <u>1</u> typical woodland	2		Management of competitive plant species	Present and management in place, but not under control	1		
	species (see species guidance)				Present and management in place, and under control	2		
3.4	No AWI species	0			Total score			
Ancient Woodland Indicator species	Infrequent patches of 1-3 AWI species	1		Note species that are invasive and/or problematic and why. Please, mark the areas in the map, and take a coordinate if possible.				
Only if the woodland is listed; to be completed between mid- March & mid-May	<u>Frequent</u> patches of 1-3 AWI species	2						
	<u>Infrequent</u> patches of 4 AWI species, or large areas of 1-3 AWI species	3						
	<u>Frequent</u> patches of 4 or more AWI species	4

5. Wildlife features				6. Access and interpretation			
Assessment	Criteria	Score	Tick box	Assessment	Criteria	Score	Tick box
5.1	No ivy on trees (jump to 5.2)	0		6.1	All in operational order (jump to 6.2)	1	
Ivy on trees (you can tick more	<u>Scattered</u> amounts of ivy on trees <u>throughout</u> <u>woodland</u>	2		Access - entrances and gates / kissing gates / stiles 6.2 Access - paths acknowledging path surfaces should be as natural/ naturalistic as possible, while maximising access to those with restricted mobility. If several access/ paths present, mark the option in the worst condition 6.3 Interpretation - Signage 6.4 Inclusive	Operational but neglected, broken	-1	
than 1)	Large amounts of ivy				Not operational	-2	
	on trees that are close to public right of way or properties	-1			Designated paths in good condition, at least some of them usable by wheelchairs	5	
5.2	<u>No</u> dead wood except small twigs	0			Designated paths in good condition	4	
Dead wood content on the ground	<u>Few</u> >10cm of diameter branches or trunks	2			Most designated paths in good condition, but difficult to use when	2	
	<u>Abundant</u> branches & trunks of all sizes, and/ or some <u>standing</u> dead wood present	3			muddy Designated paths mix of good and poor condition	2	
5.3 Other features Can tick more than one	<u>Abundant</u> fallen branches & trunks of all sizes, <u>and several</u>	4			Most of designated paths in poor condition but usable	1	
	standing dead wood present				All designated paths in poor condition and difficult to use	-1	
	Insect banks (bare sloped soil, often sandy, sunny)	3			Presence of abundant non-designated paths between the vegetation	-2	
	Woodpecker nesting holes present	3			Not seen/not present (jump to 7)	ο	
	Badger sett – active	3			Signage missing or badly damaged, unusable, or inappropriate	-1	
	At least one pond, in good condition	3			Signage out of date or unprecise but useable	о	
	At least one pond, in <u>poor</u> condition	2			Signage usable but old/ partly damaged, ideally it is replaced soon	1	
	Presence of at least a few veteran trees	4			All usable, precise and safe, but more needed	2	
	Ditches with water	3			All usable, precise and	3	
	Watercourse in <u>good</u> condition	2			safe Clear provision for people with limited	1	
	Watercourse in <u>poor</u> condition	1			mobility		
Total sco				accessibility (infrastructure/ signage)	Clear provision for people with limited mobility & evidence (e.g. signboard) of compliance with standards (e.g. Fieldfare Trust)	2
