

## Nature Tots Forest School at Walthamstow Wetlands

### Information Pack 2026-27

#### About Nature Tots Forest School

Nature Tots is a Forest School programme for pre-school children aged 18 months to 5 years. We engage and inspire young people and their carers to connect with nature through hands-on outdoor activities around wildlife.

During Nature Tots, children will explore their natural surroundings, discovering the animals and habitats around them. Activities include minibeast hunting, pond dipping, cooking, stories, music and nature crafts. Nature Tots helps children develop their confidence and emotional well-being, and skills in independent learning, problem solving, working with others and creativity.

## Parents/Guardians

Parents and children participate together. All children remain the responsibility of parents and carers throughout the session and must be supervised at all times. Any one adult must be accompanying no more than three children under 5.

## Staff

Our staff leading the sessions are all Forest School Level 3 practitioners, are DBS checked, and are first aid trained. All our activities are risk assessed, our risk assessment for outdoor learning activities can be found here: <https://www.wildlondon.org.uk/sites/default/files/2025-09/RA23%20Outdoor%20Learning%20Activities.pdf>

## Facilities

There are toilet and baby changing facilities onsite.

Snacks for children are not included but during each session there will be a story and an opportunity for the children to have a drink and snack so you may wish to bring something suitable for your child.

Food may sometimes be provided as part of the Nature Tots activity, please let us know on the booking form if your child has any dietary or allergy requirements.

For allergen information: Please note that there are sometimes cats present at the site; in the inside areas there may be traces of peanut. Please ask about any other allergen concerns you have.

Please let us know on the booking form if any of the children or accompanying adult have any access needs.

## What to wear

Children (and adults) should be dressed appropriately for the weather. We go outside come rain or shine. If the weather is heavy rain, cold or windy, we have shelter in the Forest School copse outside. We will assess the site and weather conditions each morning, if it is deemed too dangerous (storms or high winds) the session will go ahead but will take place indoors. Children should wear clothes suitable for messy play. It is advisable to bring a change of clothes in case your child gets wet or muddy to prevent them getting cold or uncomfortable. Bringing a spare pair of socks is always a good idea!

Puddle fun!

### About Walthamstow Wetlands

Walthamstow Wetlands is a 211-hectare site comprising ten reservoirs that provide drinking water for London, and which are internationally recognised for their importance for migrating birds – particularly overwintering wildfowl.

The Victorian-era Engine House hosts a fully accessible visitor centre with a café, shop, interactive displays, viewing platform, toilets, and art installations. In addition, a unique 'swift tower' has been built, in the shape of the original chimney, to house nesting swifts and roosting bats.
